

**FEA SLOPE** – Slope stability analysis with two-dimensional finite elements – Soil with visco-plastic behaviour – Failure criteria: Mohr-Coulomb for soils and Hoek-Brown for rocks – Flux criterion uncoupled – Presence of groundwater, distributed loads, seismic actions

- First license	€	1 100.00
- Second and further licenses	€	820.00

**FEA SLOPE** – Modulus inclinometers  
(post-processor for settlement computations / plot)

- First license	€	750.00
- Second and further licenses	€	620.00

**DIAFRAMMA** – Structural analysis of flexible retaining structures – Pre-dimensioning and verification of actions, settlements – Soil with visco-plastic behaviour – Presence of groundwater and surcharges – Dimensioning of free length of tiebacks – Seismic analysis using Mononobe – Okabe coefficients – (In Italian)

- First license	€	1250.00
- Second and further licenses	€	950.00

Programs are accompanied by CD for installation and exhaustive manuals:

- User Manual
- Theoretical Manual
- Exempla for validation
- Worked exempla

All prices are VAT excluded.
